FRIDAY NIGHT COMICS  
C. Seidel 25 October 2024

The bicycle is invented. Two wheels mounted to a board.

The Lady Cycling association believes cycling liberates women. The Rational Dress society protests fashion that restricts movement, and ushers in bloomers for bicycle riding.

Oscar Wilde publishes The Philosophy of Dress on clothing and the soul, highlighting the movement.

After 200 years of cycling, kids ride a version of the 1st bike, and we can wear what we want.

## Rainbow Valley - Mt. EVEREST

It isn't named this because of its natural beauty.

instead it is due to the 200+ colorful down jackets still attached to the 200+ bodies of fallen climbers.

This Reminds me of a colleague who perished WHILE Rock Climbing

IF THESE 200+ SOULS were like my friend their lives were just as colorful as their final resting place

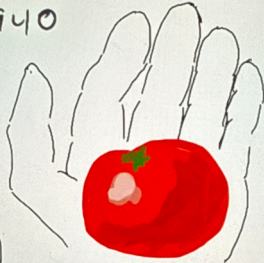

# MANANA

"THE BIGGEST FOOD FIGHT IN THE WORLD"

Started in 1940  
as a fight  
between two  
friends in

Buñol,  
Spain  
(pop. 9,000)

Became a tourist  
attraction

with  
advance ticket sales

Now drawing 20,000 visitors  
to Buñol annually.

Isn't there a better  
way to make  
tomato sauce?

Drawing by Michael Woo 27 October 2024

I served Carl Sagan  
a hot fudge Sundae

he was in Seattle for treatment

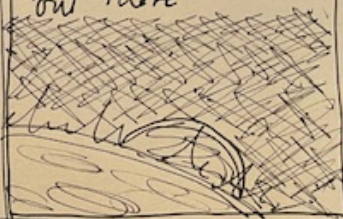

cancer

I went to college near  
Cornell where he taught.

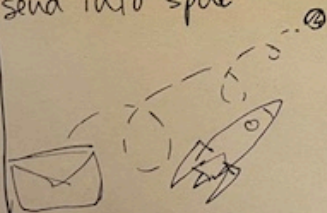

we would drive by  
his house

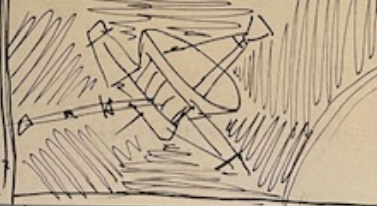

He was sure  
there was the  
possibility of life  
"out there"

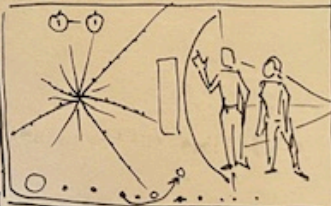

He created a message -  
like a pictograph to  
send into space

It was called the Pioneer  
Plaque - there were 2 - one  
on board Pioneer 10, one on  
Pioneer 11 (1972+73)

It was an image of  
a naked man and woman  
and a celestial map  
to show the origin
